

PYRAMID RESEARCH

SUMMARY

This research was carried out by the Russian National Academy of Sciences which includes: the Russian Academy of Medical Sciences, Institute of Theoretical and Experimental Biophysics, Graphite Scientific Research Institute, and the Institute of Physics in Ukraine.

RESEARCH RESULTS

- Immune system of organisms increased upon exposure in the pyramid (Leukocyte composition of the blood increased). Also increased regeneration of tissues)**
- Agricultural seeds placed in the pyramid for 1-5 days showed a 30-100% increase in yield**
- Russian Military radar (locator) spotted an energy column rising several miles high in the sky above the 22m Lake Seliger pyramid. Several months after this pyramid was built, the Ozone layer improved in the atmosphere in Russia.**
- Areas near the pyramids seem to have diminished seismic activity. Instead of one large powerful earthquake occurring, there are hundreds of tiny ones. Also violent weather seems to decrease in the area of the pyramids.**
- Pyramid complex was built in an oil field in Southern Russia (Bashkiria). The oil became lighter (less viscous) by 30% and the yield of the oil wells increased. These results were confirmed by (Gubkin) Moscow Academy of Oil and Gas.**

-Newborns were given solutions that had been placed in the pyramid and their health indexes increased greatly.

-Experiments with about 5000 people in jails in Russia showed that in a few months most crimes almost disappeared and behavior was much improved. This was attributed to the salt and pepper added to their food which had been placed beforehand in the Pyramid.

-The potency of pharmaceuticals increased with decreasing side effects.

- There is an increase in survival of cellular tissue infected by viruses and bacteria – The pyramids decrease the strength of various viruses and bacteria.

-When radioactive waste is placed inside the pyramids, there is a decrease in their level of radioactivity

-Spontaneous charging of capacitors (leyden jaw on top and energy source?)

-Changes in superconductivity temperature thresholds and properties of semiconductors and carbon materials.

- Ordinary water does not freeze even at 40 degrees below zero and retains its properties for years.

-Synthesized diamonds turn out harder and purer.

It is interesting that the results seem to show that increasing the height of the pyramid increases the quality of the results.

This crystalline copy of the Great Maternal Pyramid has been charged with the energy of The Great Pyramid (144 meters tall!) in Russia . It stands a full 9.5 inches and is constructed of pure Serpentine stone on all sides, including the large solid base. The active zone above & below the pyramid can be used to energetically condition water, food and other substances. It also emits a secondary zone of influence having a radius of 25 meters. A larger, more powerful version is also available.

The Healing Pyramid has demonstrated the following benefits:

- Harmonizes space within its 25-meter radius
- Neutralizes geo-pathic stress*
- Neutralizes effects of electromagnetic radiation from computers, cell phones, microwaves, etc.
- Has powerful anti-stress effects
- Optimizes immune system
- Slows process of aging
- Assists meditation
- Heals without direct interference with organism

Along with the benefits of harmonization, this pyramid powerfully treats any object placed above or underneath it. Items such as food, beverages, clothing, cosmetics, chemicals, etc, will be neutralized from many negative effects and enhanced with the life giving energies of the pyramid. Simply placing this pyramid in any room will produce all of the benefits

Thousands of medical doctors and therapists now confirm that any Geo-pathic Stress (GS) must be cleared before any treatment can be 100% effective.

The most common indications of GS:

- Resistance to medical treatment
- A feeling of being run-down and exhausted
- Nervousness & Depression
- Loss of appetite
- Pallor and not wanting to go to bed
- Insomnia
- Restless sleep
- Feeling cold
- Cramps
- Tingling in arms and legs
- Sleep walking
- Grinding of teeth
- Nightmares
- When waking in the morning often feeling fatigued, with a fuzzy head and backache
- Children are often bed wetting and babies continuously crying.
